Now making one of the most profitable and unique souvenir items is available to you.

The same embosser that the US Military uses to produce dog tags for our soldiers is also being used to produce dog tags as souvenirs at some of Americas favorite amusement parks, skating rinks, ski resorts, museums, and attractions!

This cost-effective system will allow you to produce a visitors' personalized keepsake with your attraction name, date...whatever information they choose!

Dog tag machine in Gift Shop.

Sign hanging in window

Arkwood Products sells, maintains, and has rental programs available for dog tag machines. Our most popular option, the Tough Tag 50/50 Program* has no upfront cost to you.

*Tough Tag 50/50 Program – Arkwood Products provides the dog tag machine, maintenance, service, training, a sign for hanging, and supplies needed for printing tags. Please contact us for more information.
